

## What our parents say

As a single household I struggled to find the right placement for my son in a centre where I knew he was completely happy, nurtured and looked after while I was at work. My son has mild dyspraxia, so he often gets anxiety with new situations, but he absolutely loved his time with Kindy Kids from the get-go. The teachers are like an extended family that you feel completely safe in leaving your children with, and I couldn't have wished for a better centre for my son to spend his early years in. I would recommend Kindy Kids to anyone looking for a great place to enrol their children. The outdoors get amongst it attitude, and personal one on one interactions really help children feel secure.

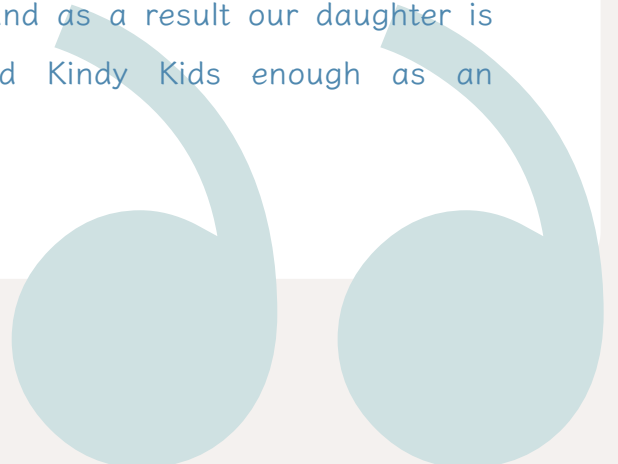

## What our parents say

We have nothing but praise for Kindy Kids and how staff have made our daughters transition to early learning a wonderful experience for all. Our daughter has a severe respiratory condition and at 3 years is still non-verbal. Initially what appealed to us was the location. It is not on a busy arterial road or dubious corner. In fact, it is situated between two speed bars on a back road. The large play area is to the rear of the property, so it is very safe, secure and private.

The staff made us feel totally at ease with their knowledge, demeanour, openness to diversity and what was most important to us was the health of their relationship with each other, which reflects good communication, a happy environment for the children and exceptional overall management of the facility.

The communication has been second to none. Aside from a daily update complete with photos and a rundown of the children's movements for the day, we are treated to a portfolio of individual stories of our children and how they fit within the ministry of education framework. We are immediately alerted to any situation that arises whether it affects just our child or the whole student body. This level of communication has shown us a high level of transparency and also the attention to detail each teacher has.

Lastly, our daughter's particular needs have been beyond well-met and are constantly addressed by Kindy Kids staff and as a result our daughter is thriving. We honestly cannot recommend Kindy Kids enough as an early learning facility.

## What our parents say

Kindy Kids is a home away from home for us! The staff are warm, welcoming and professional in an organic and genuine way. My two boys settled in beautifully and the teachers always have wonderful stories to tell me about my child's day. When you walk into Kindy Kids it just feels right. The outdoor area is a wonderful natural space where my boys can run free, feel the grass beneath their feet and explore all that Mother nature has to offer. They have a strong online presence, so you don't miss a thing which is really important to me as a working Mum.
